*"I've had American Home Shield for fifteen years on my house and they've taken care of every major problem we've had, that's been covered. The furnace was replaced, one of the air conditioning units was replaced, we also had a really problematic plumbing problem with leaks in copper pipes, and they took care of that and made it right, and it's been a great experience having them."*

**- Steve, American Home Shield Customer  
Customer since 1996**

*"One of the nice things about having American Home Shield is rather than having multiple service warranties on every single appliance in my home, I just have one."*

**- Patricia, American Home Shield Customer  
Customer since 2009**

We gladly compensated our customers for taking the time to describe their personal experiences with American Home Shield.
